

Erasmus Hematology Lectures 2026

- 12 January 2026**
Ee-1318
Chiara Ambrogio, University of Turin, Turin, Italy
RAS: New therapeutic strategies for an old oncogenic target
- 2 February 2026**
Ee-1318
Bas van Steensel, Netherlands Cancer Institute, Amsterdam, The Netherlands
Probing the grammar and logic of gene regulation
- 9 February 2026**
Zoom
Mathijs Sanders, Erasmus MC, Rotterdam, The Netherlands
The story of MBD4: an intriguing link between DNA repair and leukemia
- 23 February 2026**
Zoom
Saar Gill, University of Pennsylvania, Philadelphia, U.S.A.
Towards in vivo CART for hematologic malignancies
- 2 March 2026**
Ee-1318
Simon Haas, Berlin Institute of Health (BIH) at Charité & Max Delbrück Center (MDC) Berlin & PHURI at Queen Mary University London, Berlin & London, Germany & U.K.
From single-cell genomics to predictive patient trajectories
- 9 March 2026**
Zoom
Ami Bhatt, Stanford University, Palo Alto, U.S.A.
From precise microbiome genomics to precision medicine
- 23 March 2026**
Zoom
H. Courtney Hodges, Baylor College of Medicine, Houston, U.S.A.
Targeting chromatin dependencies of cancer and immune function
- 13 April 2026**
Ee-1318
Abdullah Khan, MRC Weatherall Institute of Molecular Medicine, Oxford, U.K.
Building bone marrow in a dish as a pre-clinical model of haematological disease

5 years of virtual Erasmus hematology lectures!

page 1 of 2

Time: Mondays 16:00 hrs / 04.00 PM CE(S)T

Location: Zoom & Ee-1318

Contact: Prof Dr Ruud Delwel, h.delwel@erasmusmc.nl

Mrs. Tessa Mannee, t.mannee@erasmusmc.nl

Dr Els Mansell, s.mansell@erasmusmc.nl

Duration: 1 hour

Webinar ID: 842 7366 0925

Zoom link: <https://us06web.zoom.us/j/84273660925>

Erasmus Hematology Lectures 2026

- 20 April 2026** Jian Xu, St. Jude Children's Research Hospital, Memphis, U.S.A.
Zoom **Enhancer therapy in the era of genome editing**
- 4 May 2026** Courtney Jones, Cincinnati Children's Hospital Medical Center, Cincinnati, U.S.A.
Zoom **Targeting metabolic vulnerabilities in acute myeloid leukemia**
- 11 May 2026** Michael Milsom, HI-STEM, Heidelberg, Germany
Ee-1318 **Intrinsic and extrinsic mediators of hematopoietic stem cell aging and pre-malignant evolution**
- 18 May 2026** Robert Signer, UC San Diego, La Jolla, U.S.A.
Zoom **Proteostasis as a driver of stem cell function and longevity**
- 1 June 2026** Mignon Loh, Seattle Children's Hospital, Seattle, U.S.A.
Zoom **Genomic determinants of outcome in B-acute lymphoblastic leukemia--How will we utilize them to improve outcome in the era of immunotherapy?**
- 15 June 2026** KJ Patel, University of Oxford, Oxford, U.K.
Ee-1318 **Formaldehyde induced clonal haematopoiesis – when and where?**
- 22 June 2026** Conor Lynch, Moffitt Cancer Center, Tampa, U.S.A.
Zoom **Trekking through the bone marrow: a spatial journey into myeloma biology**
