

# Oncology Lectures

## Program September 2024 – May 2025

September 18, 2024

**JOS JONKERS**

NKI Amsterdam

Unlocking breast cancer mysteries with genetically engineered  
and patient-derived models

October 23, 2024

**GERT STORM**

Utrecht University

Impact of nano in medicines

November 27, 2024

**PATRICK DERKSEN**

UMCU, Utrecht

Inactivation of cell-cell adhesion in breast cancer

January 22, 2025

**DAN PEER**

TA University, Tel Aviv

Nano particles

February 19, 2025

**ANDREAS WEIGERT**

Goethe-University, Frankfurt

Dying cell-derived signals in immuno-oncology

March 19, 2025

**JEROEN DE RIDDER**

UMCU, Utrecht

AI and bioinformatics applications in molecular diagnostics

April 23, 2025

**JACKY GOETZ**

INSERM, Strasbourg

Intravascular cues shape tumor metastasis

May 21, 2025

**JUDITH BOVEE**

LUMC, Leiden

Sarcoma modeling towards patient specific treatment

**ALTERNATIVE ROOM: SP-3417**
